

# FLARE FIREPLACES

---

## SUMMIT BURNER | BENEFITS

- ✦ Realistic log sets and elevated flame presentation.
- ✦ Logs burn on both sides, perfect for see-through and room definer units.
- ✦ Logs can be equipped in **ANY** new indoor Flare Fireplace.
- ✦ Can be retrofitted into previously purchased Flare Fireplace.
- ✦ Works with or without power a vent system.
- ✦ Works with natural gas or liquid propane.
- ✦ Logs are larger and stretch further apart in longer fireplaces, giving a much fuller burn presentation with less empty space.
- ✦ Blends traditional and modern design.
